

DRIVE THE STEINBAUER MERCEDES SLS  
IMPROVING ON PERFECTION

STEINBAUER

Mercedes Benz SLS 6.3 AMG 571 HP (420 kW)

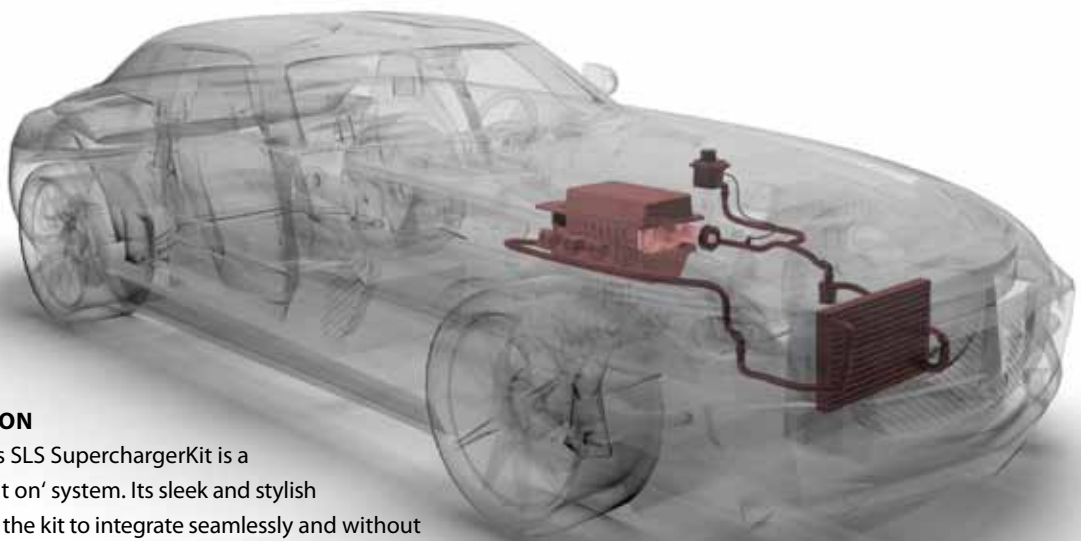

750 HP  
840 Nm

## Introducing the *Limited Edition* **STEINBAUER Mercedes SLS SuperchargerKit.**

With cutting-edge design, advanced engineering and craftsmanship STEINBAUER has transformed this luxury sports car into the ultimate in unsurpassed motoring pleasure and extreme performance.

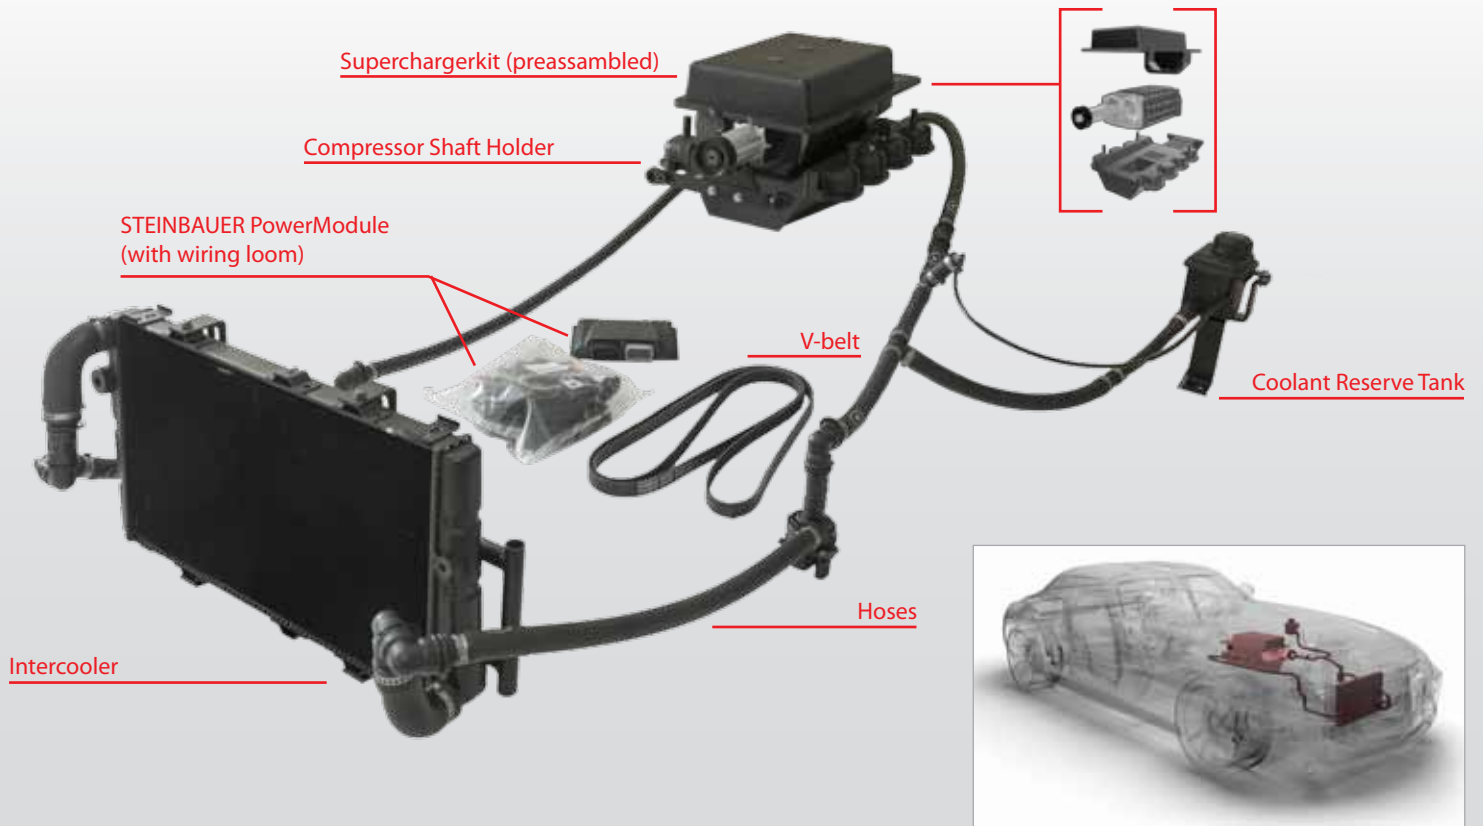

Using the latest in 3D scanning and design technology our stylish, compact kit has been engineered to perfection to fit seamlessly inside your engine compartment. Designed as a complete 'bolt on' kit and fully reversible system our engineering team has ensured that the STEINBAUER SuperchargerKit delivers true raw performance whilst not effecting drivability.

Leaders in intelligent additional performance electronics, STEINBAUER's PerformanceModule allows no interference with the original ECU and contains active control sensors that continue to monitor engine safety parameters.

### INSTALLATION

Our Mercedes SLS SuperchargerKit is a complete 'bolt on' system. Its sleek and stylish design allows the kit to integrate seamlessly and without a trace. Quality. Design. STEINBAUER
